

Hours of admin, automated to minutes.

In one day, we get AI doing at least two of your slowest jobs, so you can spend the time growing the business.

HOW IT WORKS

1

A call about your business

I explain in plain terms how AI can help a business like yours, and we go through the two jobs that take up most of your week.

About an hour, by phone or video.

£75 + VAT

Paid when you book. Cancel or move it up to 7 days before.

2

A day at your workplace

On your own computer, in your name: Claude, the AI assistant, set up, your company manual drafted from your own files with you at the keyboard, and the jobs you choose working for real before I leave. Plus a handbook to keep.

About four hours, at your work premises. Done in person; it can't be done remotely.

£500 + VAT

plus travel for your area.
Agreed in a short order form after the call; paid by card, 7 days before the day.

Want your whole team using AI? Have a look at the teams packages at opposable.ai/teams.

3

A check-in two weeks later

A short call. Are you still using it? Is the manual still right? What have you got planned, and do you need any more help from me?

Included

with the day.

Travel is a fixed price for your area, shown on a map on the website. I cover the UK and Ireland, and the price for your area includes travel and, where needed, a hotel. See yours at opposable.ai/pricing.

OPTIONAL, AFTERWARDS

More help

More of the manual, new jobs, small tools. Book an hour from your private page

£100 an hour + VAT

Further site visits

For example an always-on office computer as your Claude hub, or a proper backup, set up and tested

£500 + VAT and travel a day

Automations and custom apps

Small programs, or an app, for the jobs you do every day

Priced once we know what's needed

PAID DIRECTLY BY YOU

Your Claude subscription, in your own name. You can cancel it at any time.

Any computer or backup service you decide to buy.

YOUR DATA

Your files stay on your computer, and your accounts are yours. **It drafts, you send:** nothing goes to a customer until you've read it.
